

Sumit Prajapat

Data Analyst & BI Developer

Rajasthan, India (Remote-friendly) | sumitprajapat29@gmail.com | github.com/Skpkush | linkedin.com/in/sumit-k-prajapat

PROFESSIONAL SUMMARY

Data Analyst and BI Developer with around two years of BFSI (insurance and financial services) domain experience, building end-to-end analytics from raw data to business decisions. I ship complete pipelines: extract with Azure Data Factory, model in PostgreSQL, analyze in Python, and deliver in Power BI. Certified across the Microsoft data stack and AWS (5x certified), with hands-on work in data modeling, DAX, ETL, machine learning, and workflow automation. Seeking a full-time Data Analyst / BI Developer role to own reporting end to end.

TECHNICAL SKILLS

Analytics & BI: Power BI, DAX, Power Query, Data Modeling, Data Visualization, Excel

SQL & ETL: SQL, PostgreSQL, Azure Data Factory, ETL Pipelines, Data Warehousing

Programming: Python, Pandas, NumPy, scikit-learn, Streamlit

Cloud: Microsoft Azure, AWS

Machine Learning: Forecasting (Prophet), Classification, Clustering (KMeans), RFM Analysis

Automation: n8n, Workflow Automation, API Integrations

PROFESSIONAL EXPERIENCE

Business Data Analyst — Financial Services

[Start Date] – Present | Remote, India

- Build and maintain dashboards, data models, and reporting that run day-to-day operations for a financial-services business.
- Develop n8n workflow automations and API integrations to streamline manual reporting and data-collection tasks.
- Translate raw operational data into decision-ready insights for business stakeholders.

Python & Computer Science Instructor / School Administrator

[Start Date] – [End Date]

- Taught Python programming and computer science fundamentals to students.
- Ran day-to-day school operations and administration end to end.

Marketing Executive — Shriram General Insurance

[Start Date] – [End Date]

- Worked at ground level across insurance products, customers, and claims, building the BFSI domain knowledge I now analyze.
- Supported customer acquisition and product communication for general insurance offerings.

KEY PROJECTS

Healthcare Provider Fraud Detection

Python, scikit-learn, Azure Data Factory, PostgreSQL, Power BI

- Built fraud analytics across 558K+ Medicare claims with an Azure Data Factory pipeline loading into PostgreSQL.
- Developed a scikit-learn fraud-detection model and a Power BI dashboard for investigating flagged providers.
- github.com/Skpkush/Healthcare-Insurance-Claims-Analytics

Mutual Fund Analytics Platform

Python, Streamlit, Prophet, Azure, PostgreSQL, Power BI

- Built a live analytics platform on Yahoo Finance and AMFI data with automated ETL.

- Implemented Prophet-based return forecasting plus fund performance and risk dashboards; deployed as a Streamlit web app.
- github.com/Skpkush/mf-analytics-platform

Olist E-Commerce Analytics

SQL, PostgreSQL, Azure, Power BI, DAX

- Designed a star-schema warehouse (4 dimensions + 1 fact table, 112,650 rows) fed by Azure Blob to ADF to PostgreSQL.
- Delivered a Power BI report with 40+ DAX measures, AI visuals, and what-if pricing simulation.
- github.com/Skpkush/Olist-E-Commerce-Analytics-Dashboard

Customer Segmentation

Python, KMeans, RFM, Streamlit

- Built RFM scoring and KMeans clustering on transaction data to identify and target customer segments.
- Shipped as an interactive Streamlit app for exploring segments.
- github.com/Skpkush/Customer-Segmentation

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- AWS Certified Cloud Practitioner (CLF-C02)
- CFA Institute - Investment Foundations

EDUCATION

Bachelor of Commerce (B.Com)

University of Calcutta
